To Whom It May Concern:

With immense pleasure, I am writing this reference letter in support of **Manoj SP** who is applying to the Postgraduate Diploma Degree at your prestigious /College University. I have known Manoj SP in my capacity as his Professor for over three years now during which, I taught him the courses of 'Applied Thermodynamics', 'Heat and Mass Transfer', and IC Engines' in the fifth, sixth, and seven semesters respectively. Through my observation, I would like to say that he is attentive and studious and possesses a positive attitude towards academics.

Throughout his course of study, Manoj SP has shown great interest in practical aided learning techniques. We engaged in several courses and other discussions in which, he confidently talked about his aspirations towards higher education. For his project, he chose the significantly complex topics '**DESIGN AND DEVELOPMENT OF SUSPENSION MECHANISM FOR ROUGH TERRAIN SURFACE**', '**Design and Development of Compression Moulding Machine**' during his 3rd and 4th year of study.

Besides this, he has also gained knowledge in numerous concepts on Service application products (SAP) and quality management, which are highly valuable for the future generation.

Besides the academic record, Manoj SP as a person is always ready to take up responsibilities, and he carries duties with immense dedication.

During his academic terms Manoj SP's was an active participant in all the discussions, and always supported his peers. I am certain that Manoj SP's is going to continue to do great and creative things in future and stand-out as an individual at your school.

I have the deepest personal and professional opinion for him, that Manoj SP will bring his unique energy, optimism, passion, and tireless creativity to your class and University/college as a whole. Thus, he has my highest endorsement for admission into his desired course at your college/University. If you have any questions about this recommendation, please do not hesitate to contact me.

Regards

Dr. B.S. Dayananda
Professor, MME Dept
Faculty of Engineering and Technology
Ramaiah University of Applied Sciences, Bengaluru
