

LETTER OF RECOMMENDATION

As a former teacher and mentor for **Tushar Aggarwal**, I am proud to hear that he is considering pursuing further studies and for this purpose I am very happy to recommend him into your Programme. I know Tushar Aggarwal since 2017 when he was selected by **Jagannath International Management School, Kalkaji, New Delhi** as a Postgraduate student in the **Two-year Post Graduate Diploma in Management (Finance & Business Analytics)**. I have supervised his performance in core courses, rated his final semester project and gauged his active participation in extracurricular activities. Throughout his stint at our institute, Tushar Aggarwal impressed me with his all rounded performance.

I remember Tushar Aggarwal for his systematic and focused approach. He exhibited remarkable consistency over the complete program and successfully graduated with First Division. This score is a reflection of his keen acumen in management and accounting subjects, which he effectively honed by presenting meritorious seminars and case studies at the intra-college level. An ambitious and career driven young boy; Tushar Aggarwal was always very interactive in class. I would personally place him among the top 10 percent of students that I have mentored.

During the course of my association, I found Tushar Aggarwal to be a fast learner with a willingness to explore more. This was undoubtedly visible from his Student Exchange Programme he undertook in Germany in 2018. The positive reviews and amazing feedback that I received from his onsite supervisor made me proud to have him as my student.

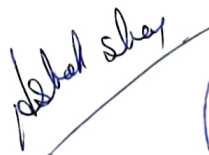

His work and extracurricular activities, beyond the studies, displays his competitive edge as well as his abilities to handle multiple things. As a part of the student organizing committee, he was responsible for organizing various intercollegiate competitions, discussions and forum meets. From preparing presentations under the guidance of subject professor to participating in health camps organized on campus; Tushar Aggarwal showcased motivated participation on each and every occasion even when summoned on a very short notice. Actively undertaking his duties, he nurtured strong organizational and team playing skills.

While working in the corporate sector, he established a good name in the industry and has extensionally travelled across the globe and has proven his worth in the organizations, where he has worked.

Based on my observation, Tushar Aggarwal is fully capable of succeeding in a rigorous graduate program as he is both determined and assiduous. Therefore, I strongly recommend him for further studies at your Institution.

Ms. Jyoti Kukreja
Asst. Professor
Faculty Coordinator

Dr. Ashok Sharma
Director
Jagannath International Management School
