LETTER OF RECOMMENDATION

Dear Sir /Madam

I am pleased to write a Letter of Recommendation for **Abhinav Vyas** for his admission to Masters Study Programs. I have been a faculty to him in his final year of Bachelor of Engineering degree at Medi-Caps Institute of Technology and Management, Pigdambar, Rau, Indore. I taught him the subjects of Advance Communication Systems in his four years of course program.

Abhinav was one of the bright young students of my class who was proactive and keen to understand the fundamentals of the subject. He read widely and thought carefully about the material to produce authoritative argument and analysis. He is a very sincere and diligent student with sufficient motivation to excel in his chosen area of engineering studies. Academically he always excelled in the theoretical subjects and was consistently placed in the top with a CGPA of 7.0.

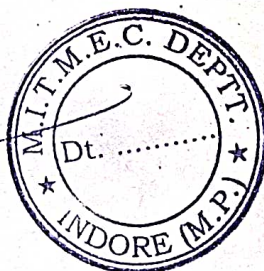

Professionally he has a diverse record of work experience. He is working with Tata Consultancy Services (TCS), India's leading IT giant.

Abhinav has a positive attitude, with high degree of motivation, innovation and initiative. He can achieve and accomplish his goals. He is punctual and is a good orator. He has participated in various certificate programs organized by college, such as Industrial IC manufacturing workshop and organizing different events in the university's annual festival.

I am confident the program Abhinav is looking for, requires a student with a sound record of achievements and Abhinav would definitely be an excellent choice. Abhinav is capable of working well without supervision and he has all the qualities to excel in a Masters Study Program. His drive and abilities will truly be an asset for any institution. I, would, strongly recommend him for the graduate program. I am sure his motivation and capability to work hard will help him achieve the academic goals. I wish him all the best for higher studies.

Sincerely,
