TO WHOM IT MAY CONCERN

It is with pleasure that I am writing this letter of recommendation for Mr. Borse Devesh Anant in support of his application to pursue quality education from your reputed institution. I have known him from last three years in my capacity as the senior professor at Gokhale Education Society College of Engineering and as his professor for Mechatronics and Hydraulics & Pneumatics. His immense passion and advance skill make him an ideal fit for your program.

Devsh is a perceptive, committed and humble student. I have seen him as an adjusting as well self-confident student. He is a very easy-going student and have never seen him take tension regarding studies and project work. During his project work he used to visit me with his team to encounter their problems regarding team work. Where he clearly stated that he believes in speaking and discussing rather than being quiet.

He has got a good knack of communication and presentation as he first listens and understands the fact. This is where he tries to keep his team together. Taking about change he has grown from a constraint minded to a open believer. I found him upright and honest in person.

I enthusiastically recommend Devsh for your program. His endless willingness to join an extraordinary program leads me to believe, there will be no limit to his growth and achievements.

Sincerely,

Prof. Deshpande Shradddha Pravin
 Department of Mechanical Engineering
