TECHNOLOGY RESEARCH SOCIAL INNOVATION & PARTNERSHIPS

Four Decades of Educational Excellence

TO WHOMEVER IT MAY CONCERN

I am glad to write this letter in support of my student Suhaani Agarwal's desire to pursue M.S. in Computer Science at your distinguished university. I have known her for about 2 - 3 years. I had the chance to observe her academic and extracurricular performances when I taught her Database Management Systems and Advanced DBMS during her first year in college. Suhaani's contributions to discussion sessions were thought-provoking and beneficial to the whole class. She consistently worked hard and scored high in the courses I taught her. This not only showcases her sincerity towards her studies but is also indicative of her proficiency in the subject. Interestingly, her academic performance was not limited to exams and tests. She was also enthusiastically involved in various research projects under my guide ship and I have seen how hardworking and determined she is in her work. She will go out of the way to complete her work and strives to give the best of her potential. She is soon going to help me in some of my work. If there is one area that she needs to focus on, it is her tendency to become impatient when the project runs beyond the deadline. Also, sometimes she has trouble saying 'no' at the right time. Looking at Suhaani's development makes me really proud of the fact that she learned from me. Her performance is a testament to her well-rounded skills. Taking all of these aforementioned qualities into consideration, I request you to accept Suhaani's application for further studies at your university. I assure you that granting her this opportunity will surely be advantageous to your department and the university.

Sincerely,

23/02/2021
