To whom it may concern:

As the Head and Associate Professor of the Biotechnology department, PIET-Nagpur, I have had the pleasure of knowing **Dhiraj Sanjay Powar** for the last three years. He has been sincere student and an asset to our college. I would like to take this opportunity to recommend Dhiraj for your graduate program.

Dhiraj is intelligent and can grasp ideas and concepts easily and quickly. I taught him Microbiology, Biochemistry metabolism and Immunology. Being a sincere and hardworking student, he has maintained his position among the top three students of our college and Nagpur University consistently for all semesters. Because of sincerity and obedience, he enjoyed a good reputation among our staff and among his colleagues.

I have found him to be a student of excellence aptitude and able research potential. I impressed by his social discipline, soft spoken nature, and confident oratory ability. He passionate about his dreams. He is not only the formal but also he represented college at national level. He had active participation in all extra-curricular activities that held in our college as well as in others.

With all these qualities under his belt and considering his strong foundation, I strongly recommend him for your Graduate Program in Biotechnology. I am sure that competitive environment will bring out the best in him and help him to live up your expectations. Please feel free to contact me if there is any further information that I might provide.

Regards,

Head
Dept. of Biotechnology

Dr. (Mrs) M. A. Soni
