To Whom It May Concern:

I am glad to write this letter of recommendation for Dhiraj Sanjay Powar who is applying for Graduate Program at your University. Dhiraj is an exceptional person, an excellent student, a dedicated research worker. He is also a great person to have in the lab. As his class teacher as well as mentor, I have seen many examples of his talent and have long been impressed by his diligence and work ethic.

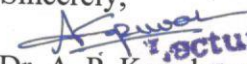

Dhiraj have been active participant of the various Departmental activities. He stood the place of coordinator of the Biotech Knowledge centre (Knowledge beyond syllabus). He has noticeable organizational skill. As part of a knowledge centre activities, he worked along with his classmate on the Temple waste flowers and used them to make different Natural dyes. The Knowledge centre head, College Principle, Departmental head and other faculty members highly appreciated this innovative approach. This innovative work is published in International Journal. Dhiraj not only headed this project, he ensured its success by demonstrating leadership abilities that his classmates both admired and respected. I feel that he will excel in research in future endeavours.

I must also make note of Dhiraj's exceptional academic performance. Dhiraj graduated with honours in the top three. His above-average performance is a direct result of his hard work and strong focus.

If your Graduate program is seeking superior candidates with a record of achievement, Dhiraj is an excellent choice. He has consistently demonstrated an ability to rise to any challenge that he must face.

To conclude, I would like to restate my strong recommendation for Dhiraj Powar. If you have any further questions regarding Dhiraj's ability or this recommendation, please do not hesitate to contact me using the information on this letterhead.

Sincerely,

Dr. A. P. Kopolwar, Lecturer
Assistant Professor,
Department of Biotechnology,
