

Statement of Purpose

Dear Sir/Madam,

I have read the open application calls for Master of Science in Computer Science for 120 ECTS with a great interest, and I am excited to send you my application for a full-time master's program at your University for your consideration.

I have recently completed my Bachelor's of Technology in Computer Science & Engineering from Siddhartha Institute of Science & Technology affiliated to Jawaharlal Nehru Technological University Anantapur (JNTUA) with very good academic records.

As a computer science graduate I have hands-on experience and technical knowledge with an emerging/cutting edge technologies like Data Science, Machine Learning and Data visualization experience using Python & R-programming.

My bachelor thesis work focuses on the analysis of malicious and benign accounts in online social network using supervised machine learning algorithms by using sample data with the features of Account viability, transaction sequences, special correlations, exposure to technical workshops and my courses have given me plenty of exposure to the core areas of computing.

Following my ambitious nature of studies in the fields of computer science has further strengthen my passion to undertake the master studies at an esteemed university. I have anticipated to streamline my career by pursuing a higher degree in Computer Science and performing quality research in the process. Universities have always been a great place for discovery, technology-driven research, and innovation.

I am particularly interested to study informatics and software engineering and I have discovered that there is a great deal of research advancing in the fields of computer science. If given a chance, I am keen to work with the eminent faculty at University and would be honored to pursue master's while becoming an added value to the university. All these I have opened to you to emphasize my passion and position as an able, prospective, and diligent student. And, I strongly believe that I can live up-to the higher standards of University, justify the confidence that shall repose on me and contribute fruitfully to the research endeavors at your university.

Yours sincerely,

Praveenkumar Reddy Karnatam
