Letter of Recommendation

In the context of being associated with this institute as Head of Mechanical department and also working as Assistant Professor I have observed Master SHARMA PRASHANT PRADEEP developing and growing towards excellence. I have known him for 2 years as he has learnt the subject of advanced manufacturing process under my guidance.

Prashant also kept a curious approach to the things I taught and grasped the concepts at a good speed. He was active during his practical sessions too. Overall his academics has been appreciable. I also remember the way he presented a topic in front of the class where he brilliantly explained covering all the details. Thus his skills of understanding and expressing are very well developed.

There he got a great platform to relate his theory sessions into real world working and also got acquainted with modern day techniques in the manufacturing industry. He was always at forefront when it come to volunteer which depicted his helping nature. He is also a generous person. It can be assured the way he interacts with everyone and behaves in a amicable way. Confidence, soft spoken, willing to gain are the few words in which Prashant can be briefly described.

I am sure he will stay up to the all the qualities stated in his recommendation letters and will also improve beyond it. He comprises of all the basic qualities regarding his desired coursework and now needs an expertise guidance which can be delivered by your esteemed organization. So I sincerely recommend his candidature and be responsible to provide further information if required.

Regards,

Sunilkumar R. Patil, M.E Mechanical (Production)

Head of Department Mechanical, Assistant Professor
