RECOMMENDATION LETTER

I am proud to recommend Mr. Sharma Prashant Pradeep for admission to the Mechanical Engineering Program. I know him for a year, during this period Prashant has shown exceptional qualities both in academic result and in the social life as well.

Prashant is a perceptive, sharp, quick individual with a high aptitude for Technical concepts. He is driven to understand how things work. His personal strengths are as impressive as his intellectual accomplishments. He is an active, outgoing person in the class with great caliber. He can get a group project rolling and he can allow others to take the lead and help them reveal their potential.

Other than academics, Prashant is also one of the best students in extracurricular activities. He represented the college in India's First Professional desert rally for engineering students and built a rally car for the competition. Perseverance, sincerity, and thirst for knowledge have always been the hallmark of his personality.

Prashant always used to explore and learn new things and is open to interact with people. He is a good listener and has good oral and writing skills. He has the ability to understand peers and assist accordingly. His Strength are his debating skills and his positive attitude.

Prashant has demonstrated excellence in all that he puts his mind to, whether it's collaborating with others. His endless curiosity, combined with his willingness to take risks, urges me to believe there will be no limit to his growth and achievements in college and beyond. In lieu of the above observations, I wholeheartedly recommend Prashant Sharma to the program offered by your revered department.

(Dr. R. N. Patil)
