

AMITYUNIVERSITY

UTTAR PRADESH

TO WHOM IT MAY CONCERN

I am pleased to write a Letter of Recommendation for Nancy Vishwas . As the Assistant Professor of Amity Institute of Information Technology (AIIT), it is a rare privilege to have a student who shows exemplary focus, dedication and love for the subject. Such a student is Nancy and it is my pleasure to recommend her to your institute for master in Management & Technology.

I have known Nancy for three years and have taught her Network Basic course and Major Project Guide respectively.

Nancy is one of the most sincere, hard working and dedicated students of her batch. . She is a quick learner. Her ability to grasp things conceptually and implement them practically is worth to take cognizance of.

Her keenness for achieving excellence has helped her in picking up a challenging Major Project topic "Medicine Android Application". Being her guide for the final year project I have closely supervised Nancy's work. She works with total dedication and professionalism also participated in different club activities.

I recommend Nancy Vishwas because I can assure you that she is exceptional and outstanding student.

Sincere regards,

Anil Kumar Sajnani
