RECOMMENDATION LETTER

Dear Admission Committee,

I am writing to you in support of Miss.V K Manasa and her desire to attend your University for the Master's program in Artificial Intelligence. I only recommend students whom I feel are well suited for the program of their choice, Miss.V K Manasa is one of those students and therefore, I highly recommend that she be given the opportunity to attend your University.

I have guided many students who have substantial Knowledge on subjects. Miss.V K Manasa has consistently shown such a strong desire to learn that I simply could not turn down her letter of recommendation.

I have known Miss.V K Manasa when I was HOD of Computer Science Department and her Grades were a First-Class and it was consistent and the last Semester she has succeed getting First Class with Distinction. Though Miss.V K Manasa performed well in the Exams, she always had the strong desire from her 2nd year of Engineering in taking up Projects, doing research about the projects and willing to learn new things. She had taken up two main projects "Freyr Drone-Fertilizers Spraying drone-An agriculture Approach" and "Head Movement-controlled system to assist The Physically Challenged Using IoT (Wheel Chair)" and as a team member she performed very well in taking up the responsibilities to complete the projects. Miss. V K Manasa was also a part of Introducing New Lab – Sai Leo Muthu Innovation Center, which is actually helping her juniors in the college to think Innovatively and come up with new Projects Ideas. Apart from the Projects Miss.V K Manasa has Published Papers, taking up initiatives in the Department Fest Activities and other Extra Circular Activities.

"It's hard to beat a person who never gives up" Miss.V K Manasa became very focused on her goals after her graduation and joined right away in Accenture. As a Principal, faculty and mentor, I strongly recommend her for admission into the Master's program. I believe that she always will be and always has been ready to go an extra mile in whatever she puts her mind into. She will continue to excel in future and receives my highest recommendation as a student.

Thank you

RECOMMENDATION LETTER

Dear Admission Committee,

I am extremely happy to recommend Miss. V K Manasa for Master's program in Artificial Intelligence in your University. I found her to be consistently delightful, tackling all her tasks with dedication and a contagious optimism.

During her stay and study, she was found to be good both at academics and Extra-Curricular activities. She always had intrigue in taking up Projects and learning new things. Also takes initiatives in participating Project Competitions. Miss.V K Manasa has bagged the Best Mini Project Award for the project entitled "CERTILOG V2.7" during her 3rd Year of engineering. She is always committed, industrious and sincere towards work.

With all these achievements and considering her strong foundation, I feel that she will excel in research in her future endeavors. So, I strongly recommend her for the Admission.

Thank you
