It gives me great pleasure to recommend Trisha.S for admission to your prestigious university/college. Trisha has been a student in the department for over three years and found her to be an aspiring and sincere student.

Trisha was able to maintain a high grade point average while attending the department and completing a full load of courses and seminars. Trisha is a smart girl with strong analytical abilities. Her total ability is reflected in her course marks, which were consistently among the highest in the class. She always presented concise explanations of her points of view, as well as supporting arguments that were both clear and powerful. Trisha also showed excellent cooperation skills in group projects.

At a personal level, Trisha is a well-disciplined, hardworking student with a pleasant personality. In addition, her being a dedicated student, she does the tasks given to her with a positive attitude.

I would therefore highly recommend Trisha. S. Her performance in my class is a good indication of how she would perform as a graduate student; she would be an extremely positive asset to your program. If you have further questions regarding her background or qualifications, please do not hesitate to contact me.

Sincerely,

(Dr.J. Renuka)
