LETTER OF RECOMMENDATION

To Whom It May Concern:

It is my great pleasure in recommending **Mr. PRANAY ENNAM** in applying for admission to the Master's program at your prestigious University. During this period, I have taught him Computer Methods in Power Systems (CMPS). Throughout his course of study, Pranay has shown great interest in practical aided learning techniques. We engaged in several courses and research related discussions in which, he confidently talked about his aspirations towards Masters in Electrical and Computer Engineering. Besides this, he has also gained experience in numerous simple concepts that are highly valuable for the future generation.

Namely his project titled *SOLAR BASED STREET LIGHT APPLICATION CIRCUIT DEVELOPMENT* received a positive response for reducing the complexity of the circuit, in the college premises. He has also taken part in several technical events and seminars held in the college and expressed his views in a clear way.

Throughout the year Pranay was an active participant in our discussions, and he always supported his peers. I am certain he is going to continue to do great and creative things in future and stand-out as an individual at your prestigious university.

I have the deepest personal and professional respect for him, and sincerely believe *Pranay* will bring his unique energy, optimism, passion, and tireless creativity to your class and University as a whole. Thus, he has my highest endorsement for admission into his desired course at your University. If you have any questions about this recommendation, please do not hesitate to contact me for I will gladly try to help.

Sincerely,

Dr. M. Aruna Bharathi

Department of Electrical and Electronics Engineering
