

LETTER OF RECOMMENDATION

To whomsoever it may concern,

It is my absolute pleasure to recommend Mr. Soumabrata Mukherjee for admission to your esteemed University. I have known Soumabrata in my capacity as his professor for over three years now in the Department of Electronics and Communications Engineering. During this period, I taught him Linear Integrated Circuits and Signals and Systems as a part of his curriculum.

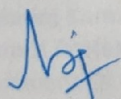

Soumabrata has completed his B.Tech degree in our College and has been an exceptional student. I have known Soumabrata since the beginning of 2016 and through my observation, he is brilliant and resourceful. His commitment throughout the course and towards every individual subject has impressed me a lot. Till now Soumabrata has secured an overall score of 8.0 in a maximum possible academic rating of 10 points.

Besides being an excellent student, Soumabrata is also a talented footballer and plays the guitar as a hobby. He took part in many inter-college football tournaments and won many prizes.

Apart from being proficient in speaking English, Soumabrata is articulate and loquacious. He has very good communicating skills and leadership skills. Although a little bit of arrogance shows up in him sometimes, still Soumabrata is the most resilient, creative, honest and passionate student of his class.

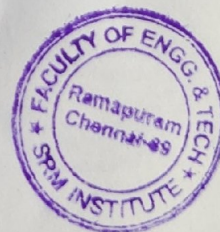

I have the deepest personal and professional respect for Soumabrata, and sincerely believe that Soumabrata will bring his unique energy, optimism, passion and tireless creativity to your class and University as a whole. Thus, Soumabrata has my highest endorsement for admission into his desired course at your University.

Sincerely,

Prof. Aravindan C
Assistant Professor

LETTER OF RECOMMENDATION

To whomsoever it may concern

It has been a pleasure knowing the applicant, Mukherjee Soumabrata, who was a dear student of mine at SRM Institute of Science and Technology, where I am a Professor of the Department of Electronics and Communication Engineering. I had ample opportunity to interact with him during the four year course and I found him to be an ambitious and sincere student. I had taught him courses on 'Control Systems' in fourth semester and 'Digital Image Processing' in seventh semester.

He was attentive during the lectures and showed good analytical arguments in solving the problems in class. He pursued his studies diligently and with perseverance, which was his strong point. Always keen to learn, he frequently went beyond the normal course work to explore new areas and enhance his understanding of concepts. His performance was excellent and he could effectively communicate his thoughts and ideas, be it a one-on-one interaction or to a large group, making him a consistent student all through the degree course.

His dedication and hard work has helped him in the smooth transition to the corporate world, where he was serving as a Software Engineer at Wipro Technologies, India.

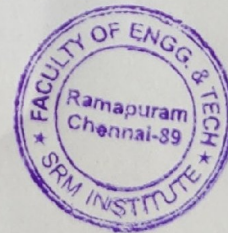

I believe that Mr. Soumabrata has now developed a solid foundation for Master's Program and strongly recommend him for consideration into your university. I am confident he will prove himself to be a valuable asset to your prestigious institution.

Sincerely,

Dr. Manoj Kumar D
