Head of Department of Mechanical Engineering
Nagole Institute of Technology & Science
Kuntloor
Ranga Reddy

LETTER OF RECOMMENDATION

It is a pleasure to recommend my student Mr. Pankaj Reddy, whom I have known for four years during his Civil Engineering graduation. I taught him the course of 'Strength of Materials'.

During this course, I found him to be extremely hard-working and self-motivated individual with keen desire to study new concepts. He is extremely intelligent student with systematic work habits. He took active interest in my lectures and I observed a fine ability and curiosity in the details of the subject. While studying, he displayed good understanding of the subject and made sure that he got his fundamentals right. In all the assignments entrusted to Pankaj, he has shown himself to be very intelligent and diligent.

I have no doubt that Pankaj has the desire and the skills necessary to make his way to the top in the field of Civil Engineering. He is interested in doing Master's program in Civil Engineering from your University. The above qualities of Pankaj will certainly be assets to him in his pursuit of higher studies. I strongly recommend that he be given a chance in the graduate program he is applying for, with possible financial aid.

I wish him success in his academic pursuits.
