Mr. P.Vimal Kishore
Head of Department of Civil Engineering
Nagole Institute of Technology & Science
Kuntloor
RangaReddy

LETTER OF RECOMMENDATION

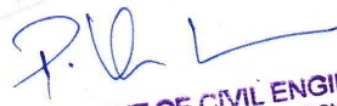

I take immense pleasure in recommending one of my outstanding students, Mr. Pankaj Reddy, whom I have known for four years during his Civil Engineering graduation at my department. He has been a tremendous student and an asset to our college. I taught him the course of 'Concrete Technology' and 'Water Resources Engineering'. This interaction provides me with sufficient information to assess the capability and analytical skills that he developed during the course. I would rank him one among the toppers I have come across in my teaching profession. He is technically strong and excellent in communication and interpersonal skills.

He is hard working and technically savvy who is keen to learn and implement new ideas in his professional life. I was really impressed by his sound knowledge in various areas of civil engineering. Also, he participated in many technical quiz's and programming contents during his graduate studies at Nagole Institute of Technology & Science.

He is confident, well-mannered and focused. Considering his motivation, perseverance and intelligence, I strongly believe that he will scale the highest peaks in his fields of interest. In view of all the above facts, I strongly recommend him, without any hesitation, for admission to the graduate program at your University.

I wish him the best in all his future endeavors.
