Department of Information Science and Engineering

Ref. No.: JNNCE/ ISE / 92-2021-22

To Whomever It May Concern

I am extremely pleased to be writing a letter of recommendation for Ms Archana J V, for her admission to your esteemed university, as part of the Master's program in Computer Science. I am Sathyanarayana K B, Assistant Professor, Department of Information Science & Engineering, J N N College of Engineering affiliated to Visvesvaraya Technological University. I have been a teacher for more than 13 years and currently serve as the Assistant Professor for the Department Information Science Engineering.

I have had the pleasure of observing Archana closely for four years now, first a smart and able student in my classes and later more closely as my student for her B.E final year project. She joined J N N College of Engineering in 2013 as a B.E student in the Department of Information Science Engineering. She quickly endeared herself to the students and staff alike, with her cheerful disposition and keen intelligence. She is familiar with subjects such as Computer Networks, Operating systems, DBMS, OOPS, Data Structure, C# programming and .net etc, to name just a few. Apart from academics, Archana was a well-known student for her initiative and interest in the college activities. These activities highlighted her qualities such as excellent communication skill which was evident during the opening and closing speech of the events held in college and the way she organized extracurricular activities. As a coordinator, she served as an editorial member for Department magazine "KAUSHALYA DEEPA" which includes all the technical and non-technical activities within the department. Also, she was selected as Volunteer for International College Fest in her 4th year. Archana completed her B.E project on "Detection of Lung Tumour using Digital Image Processing" using MATLAB under my guidance. Her project model fulfilled all the evaluation criteria from the evaluation team but also surpassed expectations.

During my period of collaboration with her, I found Archana to be a sincere and hardworking student with a hunger for knowledge and eagerness to help others. She has always been clear about future ambitions and has been preparing for pursuing a Master's degree ever since she started her B.E journey. I was delighted when she approached me to write a recommendation for her admission to your esteemed institute. I am certain that the international exposure and modern technologies offered by your institute will benefit her professional career greatly. With her sincere work ethic and never give up attitude towards life, I am confident in my expectation that she will be a valuable addition to your esteemed University. I fully expect her to excel academically and conduct valuable research. I wish her all the best for her career ahead.

I would be glad to provide further feedback regarding her candidature if required. I am reachable over email at sathyanarayanakb@jnnce.ac.in or via phone at 9902802752/8660068446.

Thank You
Yours Sincerely,

Sath 10/02/2022
Sathyanarayana K B,
Assistant Professor,
ISE, J N N College of Engineering
