LETTER OF RECOMMENDATION

I am pleased to present my views on Mr. VIJAYKARTHIK M whom I have known for the past four years as a student of Computer science. I taught him the subject of 'Computer science' and supervised him in Laboratory (Carpentry).

He was one of the best students I had in these classes. I was impressed by his affluences in design skills to demonstrate answer in strong logical and precise manner. I have found him to be an intelligent, mature and an industrious student with an analytical bent of mind. I feel that this perspicacious insight into any task that he undertakes is one of his strong points. Fuelled by his inspire ideas and guided by his strong fundamentals, Mr.VIJAYKARTHIK M has a strong or habitual liking for something or tendency to do something

His inherent ability to reason out things from basic concepts, his diligence and his analytical approach in problem solving and above and makes him an ideal , candidate for bachelor's Degree. He has a good command over English as evidenced by his public presentations both in written and oral forms in many aspects. He has an excellent aptitude for research and graduate study.

He has good communication skills, which enable him to take active participation in clubs that conducts quiz and seminars. I rate him as one of the best students I have come across for the past few years. His dedication towards higher studies, quest for knowledge and his intellectual abilities impel me to strongly recommend him to the graduate program in your esteemed university'
