LETTER OF RECOMMENDATION

I am contented to endorse this letter of recommendation in favour of **Mr. Shaik Abdur Razzaq** who wants to pursue higher studies at your university. I know him for the past two years as my student. I was able to gauge him innate abilities to understand the basic concepts and apply them to tackle the problems associated with it.

Being a Computer Science student, he is highly motivated, has a great zeal for higher academics and is always on the lookout to learn something new. He is an attentive student in the class, receptive to new ideas and his learning interest is revealed by his involvement in latest technologies and showed his capacity, through his presentations.

He is a persevering student as far as academics is concerned, which is clearly seen in the admirable marks that he has achieved. I have been his teacher in more than one course. I taught him the courses "**Mobile Application and Development & Data Warehousing and Data Mining**".

He has participated in workshops conducted in our organization and he gave his best performance. He showed keen interest in the functioning of industries and completed his Mobile Application Development 2019-2020 and got certificate by Andhra Pradesh State Skill Development Corporation (APSSDC).

I personally have a strong feeling that **Mr. Shaik Abdur Razzaq** is a deserving personality for the M.S program at your university along with financial assistance.

(Dr. P.M.S.S. CHANDU)
