

STUDY PLAN

BEFORE STUDY :

I learning the language by myself. Because I interested with Korean language. My basic Language Motivation are BTS Boys. I have a lot of personal value and respect for them. It was through them I became so much interested and so much respect about our language and culture. I am well aware that IRELAND is a good country to study. In the world of globalization, communication has played an important role in human life. English for example has become an international language for people to communicate with each other from different country. That is the reason that I choose English as my second language. As a child, my father persuaded me to study English because he strongly believe that studying another language in young age can have a huge result and efficient effect to me when I grow up. I have been studying English for more than 8 year and I have use English a lot in my daily life to improve this language. Sometime I feel more confident using English than my native language which is Tamil. However, the more I study the more I gain so I have been trying so hard to improve my English to advance level which is required for taking a bachelor's degree course. Moreover, if I get admit to scholarship I will be studying preliminary Korean language course to which I believe that English will become the main language for me to study Korean. As a result I will improve both in Korean and English. I want to study the most but because I couldn't spare my time for these in my high school, I considered to wait until university. However, in my free time in order to entertain myself from all those hardship work at school .I believe that by taking a preliminary language course I will improve this languages as my third languages quickly which is required for taking a bachelor's degree course I studying and communicating as a result I will become confident in using English.

GOAL OF STUDY & STUDY PLAN :

I had a more skills and interested of administration sector. So that's why I chosen the course of master's degree of Business Administration. This course of now most famous and leading of the world. And I finishing after the study I doing well that jobs. My career goal following graduation is to work with organization in the public and private sector that concentrate on human rights and human trafficking currently.I speak tamil and english as well as two additional languages to adequately work with international organization worldwide.As a crizen of the world. I am devoted and committed to ensuring that the rights of all are met, in the long team. I envision myself assiting organizations in devoping reports.analyzing strategies in foreign policies,investigating new policies,negotiating with foreign correspondents and fulfilling other dudies in advocating for the human rights of others.

FUTURE PLAN AFTER STUDY :

I will start my first term at the university. As a short-term goal, I planned to enhance my academic language skill in this year and focusing on the lectures. Also Getting to know about my major and my own abilities and potential is one of the priorities. Moreover working a part-time job will be great. It helps me to be involved in the society and finding a stable financial position as a student.

In the second year when I completely embrace my new life and gain enough experience, I will start my own YouTube channel to record my life. Sharing them on my page would allow me to help other people who are interested to study and live in South Korea. I will talk about my daily life and show how South Korea helps me to continue my studies. I will also talk about the challenges that I will experience as a foreigner and the ways to cope with them. Creating such these contents helps me to understand more about media and their ways to work on a minuscule scale. In the third and the last year of my studies, I will work on my thesis.
