LETTER OF RECOMMENDATION

I am pleased to write the recommendation in favor of Peetala Gowthami, who worked as an Engineer and directly reported to me for more than 3 years from April-2018.

I thoroughly enjoyed my time working with Ms. Peetala Gowthami. She is honest, dependable and incredibly hard working, also she was quick at understanding the work requirements such as clear interpretation of construction drawings and specifications, Quantity billing, etc.,

In addition, she directly interacted with Sub contractor and the Project Supervisors, ensured site coordination and implementation of all site activities and keeping safety as a top priority.

Good Skills along with a curious mindset to learn about new things were her core strength.

LETTER OF RECOMMENDATION

I am delighted in writing this letter to recommend Ms. Peetala Gowthami to your esteemed university.

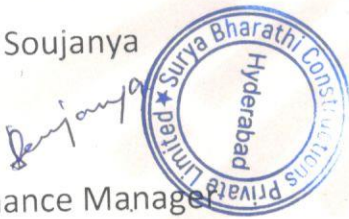

She is exceptionally responsive to her duties and is able to interpret even the most complex instructions. She is diligent, hard worker and has got innovative aptitude and skills to lead a team skillfully. She analyses the issue to foresee upcoming problems in the site and has the capability to work out solutions by going beyond the call of duty if required. All of these qualities were evident while we were working on 2 BHK apartments in GHMC area.

She has got good problem solving skills.

Ms. Peetala Gowthami would be an asset at your prestigious institution. I am confident that she will excel at her endeavors she takes up even post her masters program.

Thanks and regards
