

Abdul Ghafar Omerkhel
Dean of Computer Science
Faculty Rana,
University, Kabul,
Afghanistan

To Whom It May Concern:

I am delighted to recommend Ismail Qazizada for MS in Computer Science at your esteemed University. He was my student for the last three semesters and I have taught him subjects like Analysis of Algorithms, Data Structures, Computer Graphics, and Computer Networks.

He is a good student when it comes to hard work, academic aptitude, and overall motivation.

A sincere, highly intelligent, and responsible student, Ismail Qazizada has successfully maintained an excellent academic record in the courses taught by me. He has been among the few such students who have completed all assignments before their deadlines and with optimal scores. His performance is driven by his clarity of fundamentals and basic concepts, enabling him to swiftly latch onto new topics and fields with ease.

Data Structures & Sorting and Searching are vital tools comprising programming language foundations. He has handled the same impeccably. Ismail Qazizada has always come up with novel methods of applying the concepts as demonstrated while handling a new project on Network Design for QTC in the 8th semester.

I will always remember how he sat for the examination under medication and yet never lost the determined smile on his face. Such commitment, in my opinion, will help him outstrip all expectations laid down by your institution for incoming students.

He has always been an independent thinker, striving to learn new things, while displaying huge promise through his penchant to delve beyond the scope of the curriculum. He has always kept himself updated regarding current developments while minutely examining all technical literature likewise. His leadership qualities are impressive, having organized and managed the event RU Nature Talents held on 2018 at Rana University. It was received with profound appreciation and enthusiasm by peers and juniors for his efforts.

A student who believes in working hard and maximizing his capabilities Ismail Qazizada will be striving to fulfil all his responsibilities. His continual zeal towards learning and self-growth along with superior skills of time management will surely take him a long way in the future. I strongly recommend him for admission into your institution.

Sincerely,

Abdul Ghafar Omerkhel

Dean of Computer Science Faculty
