Letter of Recommendation

I know Mr. Deshank Dhengre, for the last 4 years (Academic Session from 2015 to 2019) as a student of Bachelor of Technology, Department of Chemical Engineering. His theoretical understanding of the courses is good, and he has produced good results. He is a capable student with great enthusiasm and has love for the subject. His academic performance has been admirable, and he has participated actively in classroom discussions, posing questions, and offering constructive feedback.

He is a very diligent and hardworking person and will thrive to give his best. He is highly principled and honest. He has actively taken part in extracurricular activities. He has excellent verbal communication and written communication skills and has the ability to solve problems in difficult situations and holds management skills as well. He is loved by her peers and is a team player as he always had active discussions with his team, supported them thoroughly, and was highly empathetic towards their needs and requirements during the course.

He has worked as an intern at various industries during the summer and winter break on curriculum development and facilitation. Deshank has always shown great interest and passion for Engineering and Innovation, now that he has applied to your Institution, I strongly recommend you to kindly consider his admission. I further assure you he will be an asset to your institution. I wish him all the best in his future endeavors.

Sincerely,

Dr. Yogesh Mahajan
Professor (Dept. of Chemical Engineering)
