LETTER OF RECOMMENDATION

As the Head of the Department of Computer Science, it gives me great pleasure to write this recommendation letter for Mr. A.Jessy Babu. I have known him for the past 1 year six months since the time enrolled for his under graduate course. I have been his course mentor for the subject '**OBJECT ORIENTED USING JAVA-I**' in the second year and ('**DATA STRUCTURE USING JAVA**' in the 4th semester of second year and as such have known him well. During his course of study in this institution, I had the opportunity to observe and appreciate his academic caliber, as well as the versatility of his personality.

Mr. A. Jessy Babu has distinguished himself as one of the best students in the class. From day one, he has come across as very hardworking and intelligent student. Who did not hesitate to put in that bit of extra effort to stand out among his contemporaries. He is highly motivated and his apparent enthusiasm and interest in the subject is supported by his diligent work. He has always shown an extraordinary sense of perception of the subjects, and has made a difference to the class with his insightful remarks during the Group Discussion sessions, which are a part of the course curriculum.

He has been actively engaged in community activities and has shown tremendous energy and boundless enthusiasm to participate, plan and organize various intra and inter-collegiate events. He always strives to be the leader and set an example to his peers. He takes up the responsibility of leading a team very well and completes work well within the stipulated time.

Mr. A. Jessy Babu continues to impress me with his knowledge, skill and dedication to his work. I'm sure you will find him to be a student whose talents will only shine further through your graduate program. It is my hope you will accept his admission to your university. If I can be of any further assistance, or provide you with any further information

(A.Pitchaiah)

Head of the
Computer Science Department
