Letter of Recommendation

It gives me great pleasure to recommend Mr. Edward Staines for the Post Graduate program at your prestigious university. As the Head of the Department of Mechanical Engineering at Loyola ICAM College of Engineering and Technology, I have known Edward for nearly two years, during which time he has proven to be a highly capable student with the ability to easily grasp concepts and solve problems in novel ways.

Edward has excelled in academics, as evidenced by his certificate grades, and he has taken a keen interest in learning new skills and putting his theoretical knowledge into practice.

He was the Captain and Technical Head of the SAE BAJA competition, where he led a team of 30 people, and he is currently competing in the SIEMENS NX - Cad Modelling competition, among other things. He has demonstrated exceptional leadership and teamwork abilities, as well as excellent technical skills and the ability to apply them.

Furthermore, he has been a member of several clubs, including Rotaract, the Society of Automotive Engineers, the Mechanical Department Student Council, and has participated in co-curricular activities during college fests. His ability to reason logically and communicate effectively has allowed him to win first place in Block and Tackle for the second year in a row.

Edward's abilities have led him to be chosen to complete his Engineering project at Heilbronn University in Germany by the end of this semester.

I am confident that Edward Staines, as a student, has a strong passion for higher education, as evidenced by his intellectual potential and constant desire to learn new skills and challenge himself. I wholeheartedly recommend Edward Staines for the Post Graduate program at your esteemed university once more, and I wish him all the best in his future endeavours.

Please do not hesitate to contact me if you have any questions.

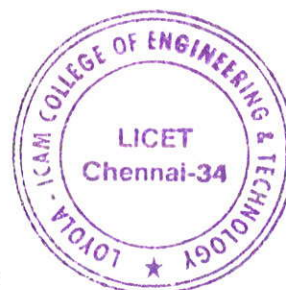

Mr. Regis X,

H.O.D (Mechanical Engineering),

LOYOLA – ICAM COLLEGE OF ENGINEERING AND TECHNOLOGY (LICET),
