

LETTER OF RECOMMENDATION

It is my immense pleasure to recommend one of the best students Mr. Pranjeet Paul from Department of Microbiology, BFIT GROUP OF INSTITUTIONS (affiliated to HNGB University, Srinagar, Garhwal). I came to know him during the academic session 2018-21. As one of his professors, I have always felt that his capabilities, intelligence, diligence and confidence make him a suitable candidate for higher studies abroad. Moreover, his positive approach towards life and his potential to overcome any kinds of challenges had brought him praises from all the other faculties including me. Besides having excellent communication skills, he is also very cordial, helpful and obedient. I strongly believe he can excel in all aspects of life and if given the opportunity to pursue his career in your esteemed institute, he will make all his teachers proud.

Apart from academic programs he had also participated in various extra-curriculum activities conducted in our college and other colleges too.

I would really appreciate.

Without a doubt, I confidently recommend his candidature for considerations and it would be a great pleasure for me to see him continuing his higher studies in your university.

Yours Sincerely,

Dr. Peter Lamaba
Associate Professor
Department of Botany
BFIT Group of Institutions
Sudhowala, Dehradun, India
