LETTER OF RECOMMENDATION

TO THE ADMISSIONS COMMITTEE,

I am honored to have received this opportunity to write a recommendation in favour of Anusmita Chatterjee plan to study at your reputed university. I am Namgyal Tshewang Bhutia, an Assistant Professor in the Department of Geography in Jogamaya Devi College and have taught her fundamentals of geography & practical works throughout the graduation year (2021-2024)

As far as I remember, one of Anusmita's most impressive work was her Undergraduate **Field Book on Galudih Village** which had a detailed exploration of various aspects of a secluded village-physical to socio economic.. Moreover she used **participant observation & interview methods** for In-Depth Exploration. This excursion illustrated her capability to combine environmental science principles with geographic techniques. Additionally Anusmita is a good team player who collaborates well and contributes positively to group projects. Recently in her group project on **Arsenic Pollution** not only she had assessed the impact of arsenic pollution on the affected population but also suggested some **innovative mitigation measures** which makes the report more high quality. Moreover she is well acquainted with the basics of Geospatial tools and techniques.

As her professor, I see her as a curious and highly motivated person. Though she had faced occasional challenges because of her tendency to shift interests frequently. However rather than viewing this as a disadvantage, I believe it's her willingness or eagerness to understand a wide range of subjects. Overtime, I have observed her to grow more overcoming this challenges.

I am confident that Miss Anusmita Chatterjee will bring a balance of dedication and teamwork to your programme. I wholeheartedly recommend her and look forward to seeing the future successes she will achieve. If you have any questions regarding her qualifications, please feel free to contact me.

Warm Regards

Namgyal Tshewang Bhutia

Assistant Professor (Geography)
