It is my great pleasure to recommend Mariyam Rahaman, who is an undergraduate of my department, who is keen to be a part of your institution for your graduate program. I have known Mariyam Rahaman for more than two years as a proficient student, who always pursues excellence through enthusiasm and attentiveness, which is evident in her academic results and vigour for other curricular and non-curricular activities. I have known Mariyam Rahaman in my capacity as her professor for over three years now during which, I taught her the courses like Filmmaking Techniques, Editing Techniques, Television Production, Digital Media, respectively. Through my observation few students are gifted with the talent and intent to project a new vision and cherish their aura for knowledge and the particulars of their syllabus. Mariyam Rahaman is undoubtedly one such student and thus I cannot deny her a letter of recommendation.

Each year, very few students offer a unique standpoint and really embrace their angle of learning the subject matter. It is based on above discussion, that I simply could not turn down this letter of recommendation. She truly is a smart student with results justifying hardworking efforts. Her hunger for practical knowledge is reflected in the various counselling sessions she had with me. Her views and aspirations during group and public discussions are solid of her scholarly ability and gentle principles.

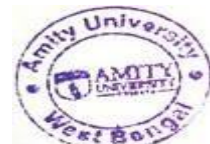

With the mind sowed with consistent inquisition, practical knowledge and passionate attitude, Mariyam Rahaman has constantly validated her finesse. Her task involves activities along with genuine questionnaires during the debate, Seminars and group discussions activities truly indicates her oral eloquence. She depicts good leadership skills which one can evaluate from her project inclusion. She leads her team very well during the project presentations. She is aware of strengths and weaknesses of her team members and assigns task accordingly. Mariyam is very well adored and respected by both her classmates and professors.

Mariyam amazes me with her certain determination for continued improvement in her overall stature. I am confident that her talent will revere your highly reputed institution. I hope you will consider this request and admit Mariyam Rahaman into your esteemed university with full possible financial assistance. I will be highly grateful to you for your consideration.
