

The State of Poland is located in the heart of Europe and covers an area of 312,700 square kilometers. Its boundaries are formed by the Baltic Sea to the north, Germany to the West, the Czech and Slovak Republics to the South and Ukraine, Belarus, Lithuania and Russia to the East. As a top international student destination, Poland provides an enriching cultural experience to incoming students worldwide. Most of those studying in Poland have only good things to say about the historical landmarks, beautiful landscapes, city life and the great variety of social activities. Many of them consider that the opportunity to study in Poland greatly helped their self-development.

ELIGIBILITY CRITERIA

Generally 50% or above are considerable.

Bachelors & Post graduate diploma : 10+2 with minimum 50%.
Masters : 10+2+3 or 10+2+4. Some University may ask for IELTS score of 5.5 or 6 overall.

STUDENT LIFE

It's a great environment for those who love to learn and to debate; the Poles have something of a reputation for fearlessly discussing politics, religion and other 'taboo' topics. Outside of university, though, student life in Poland is social, with plenty of nightlife and things to do in its student cities. Students in Poland often stay in university accommodation with other people, but some also stay in private apartments.
