

AISHWARYA P GADEKAR

OBJECTIVE

I am an analytically inclined student eager to build on my existing knowledge base while launching a career in economic policy. I'm currently in the penultimate year of my undergraduate degree. I'm keen to contribute insights to the academic community and leverage skills on a platform that permits me to do so.

EDUCATION

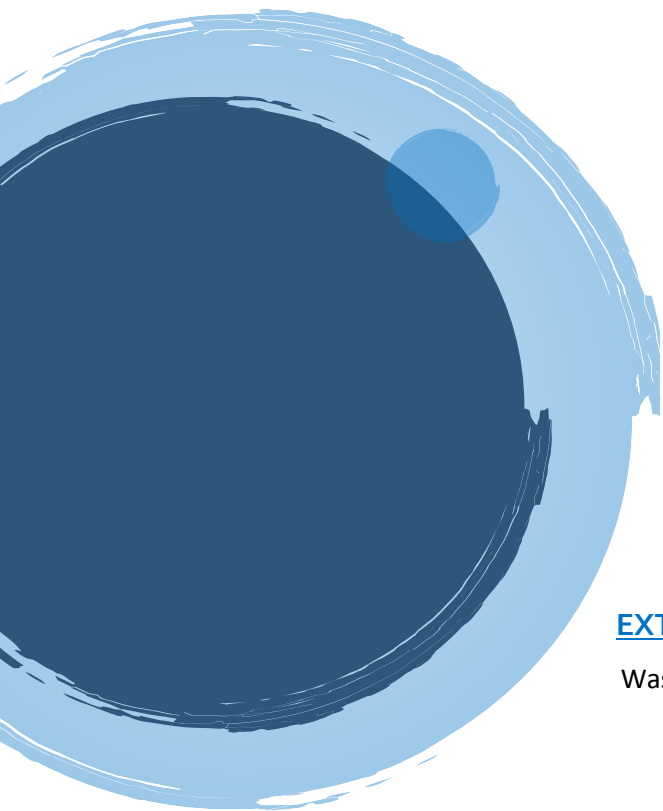

Institution	Board	Year	Course	Score
Fergusson College, Pune	Autonomous	2020-23	BA Economics	GPA: 3
Fergusson College, Pune	Higher secondary examination	2019	12 th Grade	80%
St Mary's School, Pune	Indian certificate of secondary education	2017	10 th Grade	80%

EXPERIENCE

Market analysis Intern • Kotak Securities • 2021 (Present)

I assess the trends, potential, and size of financial product markets, along with being involved in the following:

- I oversee initial public offerings of our client companies.
- I execute short sale orders on behalf of clients dealing in derivatives and instruments under the gambit of segments where short selling is permitted by SEBI.
- I engage in paper trading on an electronic stock market simulator for clients wanting to practice transactions without risking an investment

- I buy and sell securities according to the orders submitted by clients.
- I book clients' profit within their stipulated time frame.
- I deal with active traders who practice intra-day trading, executing their specified strategies.
- I have undertaken the analysis 15 companies listed on the National Stock Exchange (NSE)
- I assist clients who wish to hold securities in electronic form with their demat account opening.

EXTRACURRICULAR ACHIEVEMENTS

Was a national level football player

- I was selected on the basis of school trials, tournaments, and consistent performance at the district and state level.
- I have captained Maharashtra's U15 team.

Trinity College London:

- Grade 1, Performing text, cleared with Distinction and received an Award.
- Grade 2, Choral speaking, cleared with Distinction

Actively participated in the fourth Young Economists Research Competition (2020-2021), hosted by Meghnad Desai Academy of Economics

- **Along with a team of researchers, I conducted a study on the following topic:** Can "atmanirbhar Bharat" [self-sufficient India] be the path to India's economic prosperity?

Formed a part of the Toastmasters club, Pune

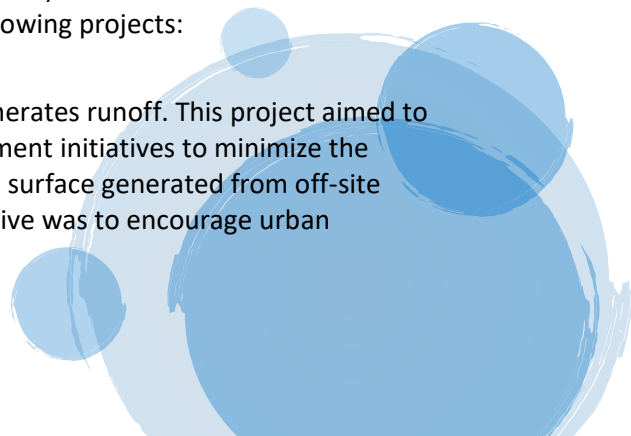

- I was invited as a public speaker to host several events. I was responsible for preparing the content of my speeches as well as delivering them.

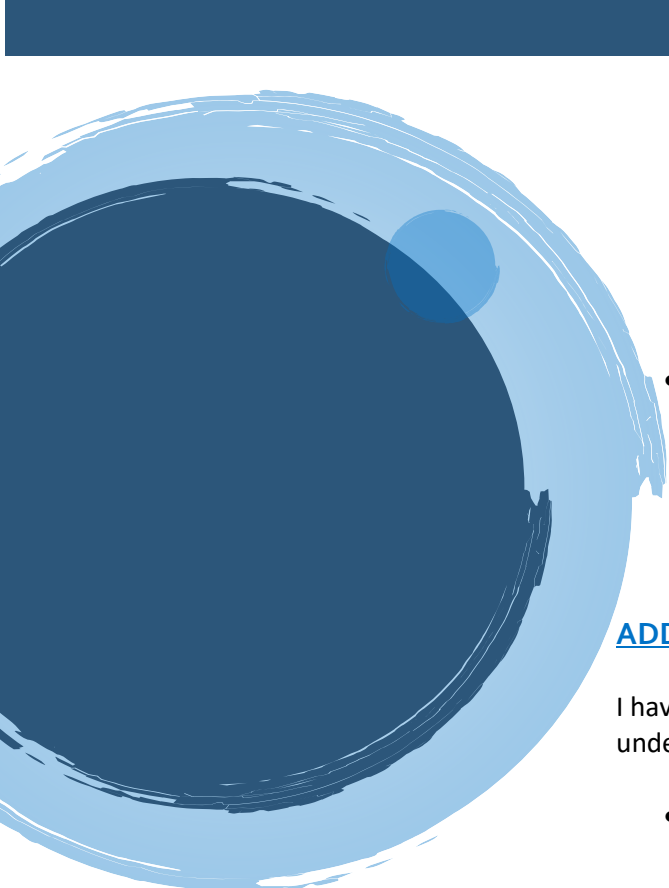

Volunteered at Greensteps (an NGO).

I was actively involved in the following projects:

- Driveway's drive

Parking in driveways generates runoff. This project aimed to crowdsource and implement initiatives to minimize the amount of impermeable surface generated from off-site parking. One such initiative was to encourage urban

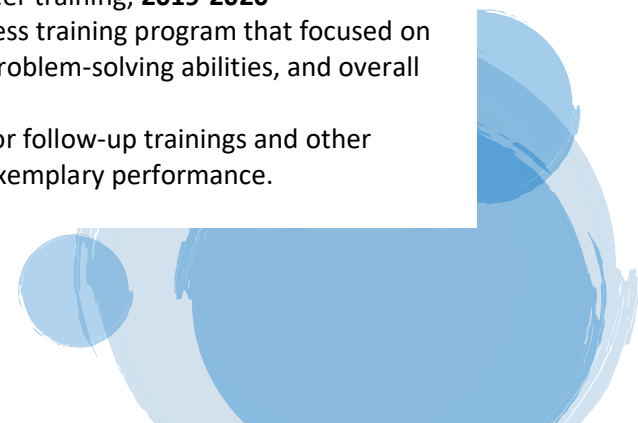

communities to adopt shared driveways.

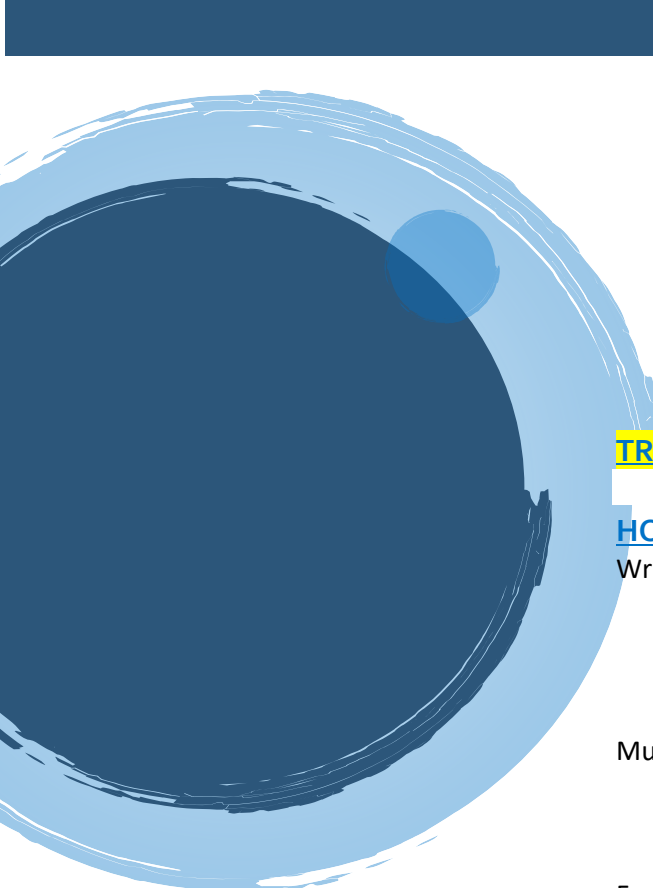

- Planting trees

As an environmentally responsible initiative and to encourage green spaces in urban areas, the project involved planting more than 1000 trees in the targeted area. Out of these, 800 have survived for over a year.

ADDITIONAL CERTIFICATIONS

I have pursued the following courses to complement my undergraduate learning:

- Currently pursuing a course on SPSS for Research, hosted on Udemy
 - Currently pursuing an online course on macroeconomics for financial markets, by the National Stock Exchange (NSE), India
 - Completed a course on basics of stock market, hosted by CA Rachana Ranade, **February 2021**
 - Completed a course on technical analysis, hosted by CA Rachana Ranade, **February 2021**
 - Completed a 3-hour certification course on research methodology, **December 2020**
 - Completed a 6-week certification online course on digital marketing, **June-July 2020**
The training consisted of blogging and web analytics, search engine optimization, email marketing, inbound and content marketing, online advertising (search, display, and video), mobile marketing, and social media marketing (platforms, ORM, and automation modules)
 - Completed the future CEO's Program, a certification course hosted by Talerang career training, **2019-2020**
This was a work-readiness training program that focused on communication skills, problem-solving abilities, and overall leadership skills.
I was deemed eligible for follow-up trainings and other benefits based on my exemplary performance.
- 

- 
- Attended a workshop on rational-emotive behavioral therapy, 2019

TROPHIES AND MEDALS

HOBBIES

Writing

- I maintain a blog, where I archive my insights and thoughts. The blog can be accessed on ashro25.blogspot.com.
- I have written a paper.

Music

- I have been trained in classical singing (Level 1), and I play the guitar.

Football

- I've been undergoing coaching since the age of 11 years, long before being selected to play football at the national level.

Animal care

- I have a pet that I have trained and I'm responsible for. I have also volunteered at a few animal shelters.

SKILLS

Research skills: I can conduct a research on a topic relevant to my education field and report the findings and their implications.

Analytical skills: I can analyze volumes of data and economic forecasts and trends, as well as financial reports.

Customer service skills: I can execute market trading orders on clients' behalf and interact with clients, addressing their requests and queries with promptness and a solution-oriented approach.

Time-management skills: I can work with tight submission deadlines for projects and assignments and turn in deliverables before the deadline, to maintain a buffer in case of exigencies.

Computer skills: I am comfortable with Microsoft Word, PowerPoint, Excel, Google docs, and statistical packages.
