## RECOMMENDATION FOR UNDERGRADUATE PROGRAM TO ABHAY BAKSHI

This is to state that Mr. ABHAY BAKSHI (Admission No. 10968) S/O Mr. Parveen Bakshi & Mrs. Seema Bakshi, who is applying for the Bachelor's Program at your esteemed university, is a diligent student and has maintained reasonably good academic record. I am teaching him Physics and have found him as hardworking and willing to learn. He has shown a remarkable and positive change in his personality during his study tenure.

Physics is considered as one of the most prevailing and problematic subject by the students in the realm of science but Abhay did well due to his analytic, mathematical mind and investigatory attitude. His participation in laboratory and class room teaching is exemplary.

ABHAY BAKSHI is a self motivated and focused student. He has consistently demonstrated an excellent work ethic. He has also taken active part in a number of extra-curricular activities organized by the school and he has also exhibited sincerity, dedication and professionalism in those activities. As the class teacher and subject teacher (Physics), I know that he is a very disciplined and highly motivated person who is often willing to extend help to his fellow students and juniors in their academic endeavours. I am sure that he will greatly contribute to the classroom as well as to the social environment of any institution the he joins.

I know when he joined senior secondary class (class XI) he was a little hesitant to go on stage and give performances but with his willingness and motivation he performed very well on sports day and class assembly. He contested for class language monitor and got selected, which was great confidence shown by him. He is very eager to do community service and extends helping hand for the poor and needy.

He is a student of good academic aptitude and I am confident that he will be an asset to the further studies. I therefore, strongly recommend him for admission in the reputed college studies of your University.

I wish him all the best for his future.

  
Ajit Kumar Harit  
PGT, Physics  
Class Teacher
