OBJECTIVE

Looking for an undergraduate degree program in civil engineering/transportation engineering/urban planning/landscape architecture etc.

PERSONAL STATEMENT

Aspiring student expecting to pass out of high school wishing to pursue higher education in the field of railway infrastructure and technology.

Has a level of language proficiency in Marathi, Hindi, German, Chinese and excellent English skills (IELTS 7.5).

Has taken on multiple leadership roles in school – led a music band, won Best Scout, organized group projects, has written, directed and acted in plays, etc.

Secured a good score in the engineering exam “JEE Main” in India (86 %ile).

Has excellent physique and has represented Pune City in athletic running, and runs 21km marathons as well.

Has good drawing skills (sketches buildings).

Looking to enter the field of railways to facilitate international cooperation in development, production and innovation in high speed railroad infrastructure. Has good potential for this field due to multiple language proficiency, mastery in basic engineering concepts, affinity for travelling, leadership skills and a passion for railroads.

TECHNICAL SKILLS

- Excellent English language proficiency (IELTS band 7.5)
- Has taken a foundation course for India's engineering entrance exam (JEE Main) and secured 86 %ile
- Studied Mandarin Chinese up to HSK level 3 but has been unable to take the exam due to centre closures. Is engaged in active language exchange with partners in China.
- Has good drawing skills
- Has good English writing skills
- Has lots of sports achievements in athletic running.
- German language proficiency – Goethe Zertifikat A1
- Has basic C++ programming skills.

PERSONAL SKILLS

- Excellent leadership skills with lots of experience. Led a music band, won Best Scout, organized group projects, has written, directed and acted in plays, etc.

- Communication skills – has rock solid self-confidence, actively participates in group discussions and has compered the school assembly and special events numerous times. Has acquired lots of patience and ability to systematically clear misunderstandings through voice based language exchange with friends in China.
- Always up to learning new things and gaining new information. Has particular interest in international politics and diplomacy, East Asian culture and customs, aircraft operations and railway engineering technology.
- Constantly pushes forward to run further distances in marathons. Has currently run 21km.
- Always thinks about long term consequences while taking important decisions and aspires to forge long term relationships with people of importance.
