LETTER OF RECOMMENDATION

I'm pleased to write this letter to recommend **Ms.Likhitha Mandla** who has been an impressive student for her period of graduation. I educated in the status of Professor and Head of Electronics and Communication Engineering, I taught her Digital Communication in her fifth during which I observed that she has a great interest toward learning and the ability to quickly grasp anything that has been taught. She possesses required knowledge in her subjects and strives for perfection.

I observed that she was hard working and possesses qualities of commitment for being responsible. Keen to enhance her knowledge for the subject, she proactively interacted with her educators and seniors. Apart from academics, she also demonstrated communication skills, a curious mind, and admirable social skills. In addition to those she also organized and participated in many technical events at our annual technical & cultural fest.

Ms.Likhitha have good command on the technical aspects, where she can achieve something laudable if were guided well. she will definitely add value and diversity to the academic community at your university. Based on her performance and capabilities, I recommend her for the program in your prestigious university. I wish her success in all her future endeavours.

Sincerely,

Dr. S.P. Singh

LETTER OF RECOMMENDATION

It is with great pleasure that I write this letter of recommendation in favor of **Ms. Likhitha Mandla** to support her in pursuing a master's degree from your university. Though I was an assistant professor in the Computer Science department, I had the chance to mentoring and teaching her in his academic pursuits. Likhitha has always been highly curious and interactive in class.

Ms. Likhitha Mandla is an exceptional student that immediately set her apart from her peers. During her undergraduate, I taught her 'Object-Oriented Programming through JAVA' which has both theories as well as practical sessions. Her desire to learn programming concepts and their applications showed her enthusiasm towards technology. She approached me to get the necessary knowledge and skill to support her chances of getting placement through our institution, during this mentoring I observed her ability to learn and adapt fast and her practical way of approaching a problem, these qualities and her hard work helped her in securing job offers even before she graduated which, I am very proud and pleased. She even attended many workshops on modern technologies like 'Internet of Things' and 'python' shows her interest in acquiring knowledge and improving her skill.

Apart from academics, she also demonstrated excellent communication skills, a curious mind, and admirable social skills. She also organized and participated in many technical events at our annual technical & cultural fest. She encouraged and invited students from other institutions too, proving her tremendous leadership and social skills.

Because of all these reasons and qualities and having known her academically and personally, I strongly recommend **Ms. Likhitha Mandla** at your esteemed Institution to pursue her master's degree along with suitable financial aid. I believe she possesses the passion, zeal, and self motivation required to embark on this journey to reach greater heights in her career. My best wishes for her future endeavours.

Yours sincerely,
(Vedavathi Kotagiri)

LETTER OF RECOMMENDATION

With immense pleasure, I am writing this letter of recommendation in support of Ms. Likhitha Mandla who is applying to the master's program at your esteemed University. She made it into our institution owing to a sterling performance in a competitive entrance exam. I have known her in my capacity as her Professor, I have been in contact with her ever since she joined 'Electronics and Communication engineering' and taught her the course "Digital system and designs". Through my observation, I would like to say that she is attentive and possesses a positive attitude towards learning.

Throughout her course of study, she has shown great interest in practical aided learning techniques. We engaged in several courses and research-related discussions in which she confidently talked about his aspirations towards higher education. For her project, she chose the significantly complex topic of the 'Internet of things. Besides this, she has also gained experience in numerous simple concepts that are highly valuable.

Over the years I have mentored numerous undergraduate and graduate-level students but her good logical skills and etiquette have made her unique among and have endeared her equally to the faculty also. Likhitha is a dedicated, bright student and is interested in exploring new ideas.

I have the deepest personal and professional respect for her, and sincerely believe Ms. Likhitha will bring her passion and tireless creativity to your class and University. I believe that she has an inclination towards her field of interest and will not only be able to contribute to your program but also benefit greatly from it. I recommend you provide her with the required financial aid. If you have any questions about this recommendation, I will be glad to answer.

Warm Regards,

(Dr. D. Venkat Reddy)

LETTER OF RECOMMENDATION

I have known Ms.Likhitha Mandla in the status of Associate Professor of the Department of Electronics and Communication Engineering for just about 2 years yet instructed "Radar" in her seventh semester. At this point, Ms.likhitha has arrived at a very much prepared character with practically all the constructive qualities by and scholarly angles from a scholastics perspective. Right now, Likhitha has demonstrated express information regarding the matter that I educated and her exact methodology entranced me past cutoff points.

This semester gave me sufficient time in evaluating her gauge according to a scholarly perspective as she played out all the exercises effortlessly and rationale that others felt exceptionally strenuous and difficult to accomplish. During my cooperation with her, while the semester was in progress, she showed interest and attempted to offer conversation starters that others would never at any point consider. This caused me to comprehend her active ability for the subject and I generally wanted that her be set in an incredible college where her fantasies work out.

I have the most profound expert regard for her that she requested from everyone with her dynamic interest in the entirety of her scholarly exercises. I really and truly accept that Mrs. Mandla Likhitha would carry with her the dynamic vitality, enthusiasm for the subject, hopeful methodology for her examinations, and furthermore her enthusiastic action to your group, school, and college causing it to gain name and popularity.

I embrace her candidature with all the worthiness and prescribe Mrs.Mandla Likhitha for the ideal course in your college under the MS program. In this manner, she might get her fantasy of abroad instruction in the USA to work out with an entrance into your significant college with any money-related guide, if conceivable.

Sincerely,

Dr.Saidulu
